#### LETTER OF TRANSMITTAL

Honorable LUTHER H. HODGES Governor of North Carolina Raleigh, North Carolina

Dear Governor Hodges:

I have the honor to transmit to you the Biennial Reports of the North Carolina Correction and Training Schools under the administration of the Board of Correction and Training. These schools are:

Eastern Carolina Industrial Training School for Boys, Rocky Mount

> Morrison Training School Hoffman

State Home and Industrial School for Girls (Samarcand)
Eagle Springs

State Training School for Negro Girls (Dobbs Farm) Kinston

Stonewall Jackson Manual Training and Industrial School Concord

The Board wishes to thank you for your interest in and support of the program of correction in North Carolina. Other State agencies have been most cooperative and helpful and we are indebted to them.

Mr. Samuel E. Leonard resigned as Commissioner of Correction effective June 30, 1956. On October 5, 1955 the Board appointed Mr. Blaine M. Madison as Commissioner of Correction to succeed Mr. Leonard. Mr. Madison came with the Department on January 1, 1956, and assumed his full duties as Commissioner on July 1, 1956. We feel that we have done a good job and we face the future with the confidence that we will continue to render delinquent boys and girls in our state a wholesome and constructive service.

Respectfully submitted,

CLYDE A. DILLON, *Chairman*North Carolina Board of Correction and Training

#### REPORT OF COMMISSIONER OF CORRECTION

Mr. Clyde A. Dillon, *Chairman*North Carolina Board of Correction and Training
Raleigh, North Carolina

#### Dear Mr. Dillon:

It is a real pleasure to give you the Biennial Report of the program being conducted in the Correction and Training Schools in North Carolina.

A great deal of improvement has been made in the physical plants at the various schools during the biennium. Several new buildings have been constructed and several have been renovated. There is still need for additional and improved facilities. These have been itemized in our Biennial Budget Request for Permanent Improvements.

One of the greatest resources of any school is its faculty; the teachers who guide the thinking and conduct of the students. The members of our personnel are working long hours and are rendering faithful and effective service. The program is designed to include activities compatible with the interests, aptitudes and abilities of the students committed to our care. Very few children are ever committed to prison after having the benefit of training in the Correction Schools. Children who have behavior problems are provided therapy and treatment and are returned to their communities as assets instead of liabilities. It is the purpose of the program to re-educate the students and redirect their thinking so that they will learn and develop high standards of conduct. Citizenship of a high order is fundamental in the achievement of students in the schools. Upon release they should be characterized by integrity, uprightness and honesty. It is the purpose to design a program so that all students who come to the schools

Will become better educated,

Will be good citizens while in the schools,

Will return to their communities as respectable and lawabiding citizens,

And will increase in wisdom, and in stature, and in favor with God and man.

#### Eastern Carolina Training School

The central cafeteria has been completed and we are now able to provide a sound and constructive feeding program at Eastern Carolina Training School to meet the educational and nutritional needs of the students. A new sewage disposal plant has been constructed and is now in operation.

#### Morrison Training School

Morrison Training School now has the best physical plant it has ever had and a new 60-capacity cottage is now under construction. The new cottage replaces an old 40-capacity cottage and, therefore, increases the capacity of the school by only twenty students. The school is in need of additional cottages in order to meet the needs of the Juvenile and Domestic Relations Courts of the State.

#### Samarcand

The school buildings have been completed at Samarcand and they are now in use. They were dedicated in public ceremonies on October 17, 1956. A multiple-use recreation building and two new cottages are needed at Samarcand.

#### Dobbs Farm

The campus driveways have been hard surfaced at Dobbs Farm and the bathrooms have been renovated in one of the older cottages. Arrangements have been made to expand and improve the course of study in the regular school at Dobbs Farm. The kitchen and staff dining room in Leonard Cottage have been renovated and made into a Home Economics Department. This work will correlate the on-the-job training the girls are now getting by working in the cafeteria, laundry and cottages. Two additional cottages, a multiple-use recreation building and an auditorium are needed at Dobbs Farm.

#### Jackson Training School

The cottages have been renovated at Jackson and a heating system has been installed in each cottage. The dental office and laboratory have been completely renovated and new dental equipment has been purchased and installed. This renovation provides the school with facilities to do a much better job. A new school building is needed at Jackson and the administration building needs renovation.

I am happy to report that the superintendents and staff members are doing a good job of education and rehabilitation at the Correction and Training Schools.

Respectfully submitted,

BLAINE M. MADISON
Commissioner of Correction

#### H. B. 242

#### CHAPTER 226

An Act to Amend Chapter 134 of the General Statutes by Rewriting Article 9 Thereof, Creating a State Board of Correction and Training and Prescribing the Powers and Duties Thereof.

The General Assembly of North Carolina do enact:

Section 1. Chapter 134 of the General Statutes is hereby amended by rewriting Article 9 thereof in its entirety, so that said Article 9 shall read as follows:

- Art. 9. State Board of Correction and Training.
- G. S. 134-90. State Board of Correction and Training created. There is hereby created a State Board of Correction and Training to be composed of nine members, all of whom shall be appointed by the Governor of North Carolina. The Commissioner of Public Welfare shall be an ex officio member without voting power.

The original membership of the board shall consist of three classes, the first class to serve for a period of two years from the date of appointment, the second class to serve for a period of four years from the date of appointment, and the third class to serve for a period of six years from the date of appointment. At the expiration of the original respective terms of office, all subsequent appointments shall be for a term of six years, except such as are made to fill unexpired terms. Five members of the board shall constitute a quorum.

Members of the board shall serve for terms as prescribed in this Section, and until their successors are appointed and qualified. The Governor shall have the power to remove any member of the board whenever, in his opinion, such removal is in the best public interest, and the Governor shall not be required to assign any reason for any such removal.

G. S. 134-91. Powers and Duties of the State Board of Correction and Training. The following institutions, schools and agencies of this State; namely, the Stonewall Jackson Manual Training and Industrial School, the State Home and Industrial School for Girls, Dobbs Farm, the Eastern Carolina Industrial Training School for Boys, the Morrison Training School, and the State Training School for Negro Girls, together with all such other correctional State institutions, schools or agencies of a similar nature, established and maintained for the correction, discipline or training of delinquent minors, now existing or hereafter created, shall be under the management and administrative control of the State Board of Correction and Training.

Wherever in General Statutes 134-1 to 134-48 inclusive or in General Statutes 134-67 to 134-89 inclusive, or in any other laws of this State, the words "board of directors", "board of trustees", "board of managers", "directors", "trustees", "managers", or "board" are used with reference to the governing body or bodies of the institutions, schools or agencies enumerated in 134-90, the same shall mean the State Board of Correction and Training provided for in General Statutes 134-90, and it shall be construed that the State Board of Correction and Training shall succeed to, exercise and perform all the powers conferred and duties imposed heretofore upon the separate boards of directors, trustees or managers of the several institutions, schools or agencies herein mentioned, and said powers and duties shall be exercised and performed as to each of the institutions by the State Board of Correction and Training herein provided for. The said board shall be responsible for the management of the said institutions, schools or agencies and the disbursement of appropriations made for the maintenance and permanent enlargement and repairs of the said institutions, schools or agencies subject to the provisions of the Executive Budget Act, and said board shall make report to the Governor annually, and oftener if called for by him, of the condition of each of the schools, institutions or agencies under its management and control, and shall make biennial reports to the Governor, to be transmitted by him to the General Assembly, of all moneys received and disbursed by each of said schools, institutions or agencies.

The State Board of Correction and Training shall have full management and control of the institutions, schools and agencies named in this Article,

and shall have power to administer these institutions, schools and agencies in the manner deemed best for the interest of delinquent boys and girls of all races. Similar provisions shall be made for white and negro children in separate schools. Indian children shall be provided for in a manner comparable to that afforded children of the white and negro races. Individual students may be transferred from one institution, school or agency to another, but this authority to transfer individual students does not authorize the consolidation or abandonment of any institution, school or agency. The Board of Correction and Training, subject to the approval of the Governor and the Advisory Budget Commission, is authorized to transfer the entire population at Dobbs Farm to the State Home and Industrial School for Girls and to utilize the present facilities at Dobbs Farm as a training school for negro girls.

The State Board of Correction and Training is hereby vested with administrative powers over the schools, institutions and agencies set forth in this Article, together with all lands, buildings, improvements, and other properties appertaining thereto, and the board is authorized and empowered to do all things necessary in connection therewith for the care, supervision and training of boys and girls of all races who may be received at any of such schools, institutions or agencies.

- G. S. 134-92. Organization of the Board. The State Board of Correction and Training is hereby authorized and given full power to meet and organize, and from their number select a chairman and vice chairman. The Commissioner of Correction hereinafter provided for in this Article shall be executive secretary to the board. All officers of the board shall serve for a two-year period, which period shall be the same as the State's fiscal biennium.
- G. S. 134-93. *Meetings of the Board*. The State Board of Correction and Training shall convene at least four times a year and at places designated by the board. Insofar as practicable, the place of meetings shall rotate among the several schools and institutions.
- G. S. 134-94. Executive Committees. The State Board of Correction and Training shall select from its number an executive committee of three members. The powers and duties of the executive committee shall be prescribed by the board and all actions of this committee shall be reported to the full board at the next succeeding meeting.

In addition to the executive committee the board may set up such other committees as may be deemed necessary for the carrying out of the activities of the board.

- G. S. 134-95. By-laws; rules and regulations. The State Board of Correction and Training shall make all necessary by-laws, rules and regulations for its own use and for the governing and administering of the schools, institutions and agencies under its control.
- G. S. 134-96. Commissioner of Correction. The State Board of Correction and Training is hereby authorized and empowered to employ a Commissioner of Correction who shall serve all schools, institutions and agencies covered by this Article. The board shall prescribe the duties and salary of the Commissioner of Correction, subject to the approval of the Director of the

Budget. The board may employ secretarial help and such other assistants as in its judgment are necessary to give effect to this Article, subject, however, to the approval of the Director of the Budget.

The Commissioner of Correction shall be a person of demonstrated executive ability and shall have such special education, training, experience and natural ability in welfare, educational and correctional work as are calculated to qualify him for the discharge of his duties, such training shall include special study in the social sciences and adequate institutional and practical experiences; and he must be a person of good character. He shall devote his full time to the duties of his employment and shall hold no other office, except that he shall serve as secretary to the State Board of Correction and Training.

The salary of the Commissioner of Correction and his assistants and the expenses incident to maintaining his office, his travel expenses, and the expenses of the board members shall be paid out of special appropriations set up for the State Board of Correction and Training. The State Board of Public Buildings and Grounds shall provide suitable office space in the City of Raleigh for the Commissioner and his staff.

- G. S. 134-97. Compensation for members of the board. The members of the State Board of Correction and Training shall be paid the sum of seven dollars (\$7.00) per day and actual expenses while engaged in the discharge of their official duties.
- G. S. 134-98. Election of Superintendents. The State Board of Correction and Training shall elect a superintendent for each of the schools, institutions and agencies, covered by this Chapter. Each superintendent shall be equipped by professional social work training and experience to understand the needs and problems of adolescent boys and girls, to administer an institutional program and to direct professional staff members and other employees. The superintendents of the several institutions, schools and agencies shall be responsible, with the assistance of the Commissioner of Correction, for the employment of all personnel. The superintendents of the several schools and institutions shall likewise have the power to dismiss any employee for incompetence or failure to carry out the work assigned to him.

The superintendents shall make monthly reports to the Commissioner of Correction on the conduct and activities of the schools, institutions or agencies, and on the boys and girls under their care, and such reports on the financial and business management of the schools, institutions or agencies as may be required by the Board of Correction and Training.

- G. S. 134-99. Bonds for superintendents and budget officers. All superintendents and budget officers shall before entering upon their duties make a good and sufficient bond payable to the State of North Carolina in such form and amount as may be specified by the Governor and approved by the State Treasurer.
- G. S. 134-100. Who may be committed. The schools, institutions and agencies enumerated, and others that now exist or may be hereafter established, shall accept and train all delinquent children of all races and creeds

under the age of eighteen as may be sent by the judges of the juvenile courts or by judges of other courts having jurisdiction, provided such persons are not mentally or physically incapable of being substantially benefited by the program of the institution, school or agency.

- G. S. 134-101. Removal request by board. If any boy or girl under the care of a State school, institution or agency shall offer violence to a member of the staff or another boy or girl or do or attempt to do injury to the buildings, equipment, or property of the school, or shall by gross or habitual misconduct exert a dangerous or pernicious influence over other boys and girls, the Board of Correction and Training may request the court committing said boy or girl or any court of proper jurisdiction to relieve the school of the custody of the boy or girl.
- G. S. 134-102. Transfer by order of Governor. The Governor of the State may by order transfer any person under the age of eighteen years from any jail or prison in this State to one of the institutions, schools or agencies of correction.
- G. S. 134-103. Institution to be in position to care for offenders before commitment. Before committing any person to the school, institution or agency, the court shall ascertain whether the school, institution or agency is in a position to care for such person and no person shall be sent to the school, institution or agency until the committing agency has received notice from the superintendent that such person can be received. It shall be at all times within the discretion of the State Board of Correction and Training as to whether the board will receive any qualified person into the school, institution or agency. No commitment shall be made for any definite term but any person so committed may be released or discharged at any time after commitment, as hereinafter provided in this Article.
- G. S. 134-104. Delivery to institution. It shall be the duty of the county or city authorities from which the person is sent to the school, institution or agency by any court to see that such person is safely and duly delivered to the school, institution or agency to which committed and to pay all expenses incident to his or her conveyance and delivery to the said school, institution or agency. If the offender be a girl, she must be accompanied by a woman approved by the county superintendent of public welfare.
- G. S. 134-105. Return of boys and girls improperly committed. Whenever it shall appear to the satisfaction of the superintendent of a State school, institution or agency and the State Board of Correction and Training that any boy or girl committed to such school, institution or agency is not of a proper age to be so committed, or is not properly committed, or is mentally or physically incapable of being materially benefited by the service of such school, institution or agency, the superintendent, with the approval of the State Board of Correction and Training, may return such boy or girl to the committing court to be dealt with in all respects as though he or she had not been so committed.
- G. S. 134-106. Work to be conducted. There shall be established and conducted on such lands as may be owned in connection with the schools, institutions or agencies such trades, crafts, arts, and sciences suitable to the

students and such teachings shall be done with the idea of preparing the students for making a living for themselves after release. Schools shall be maintained of public school standards and operated by teachers holding standard certificates as accepted in State's system of public schools. A recreation program shall be maintained for the health and happiness of all students. The precepts of religion, ethics, morals, citizenship and industry shall be taught to all students.

- G. S. 134-107. Conditional release: superintendent may grant conditional release; revocation of release. The Board of Correction and Training shall have power to grant conditional release to any person in any school, institution, or agency under its jurisdiction and may delegate this power to the superintendents of the various schools, institutions and agencies, under rules and regulations adopted by the Board of Correction and Training; such conditional release may be terminated at any time by written revocation by the superintendent, under rules and regulations adopted by the Board of Correction and Training, which written revocation shall be sufficient authority for any officer of the school, institution or agency, or any peace officer to apprehend any person named in such written revocation in any county of the State and to return such person to the institution.
- G. S. 134-108. Final discharge. Final discharge may be granted by the superintendent under rules adopted by the State Board of Correction and Training at any time after admission to the school; provided, however, that final discharge must be granted any person upon reaching his twenty-first birthday.
- G. S. 134-109. Return of runaways. It a boy or girl runs away from a State school, institution or agency, the superintendent may cause him or her to be apprehended and returned to such school, institution or agency. Any employee of the school, institution or agency, or any person designated by the superintendent, or any official of the welfare department, or any peace officer may apprehend and return to the school, institution or agency, without a warrant, a runaway boy or girl in any county of the State, and shall forthwith carry such runaway to the school, institution or agency.
- G. S. 134-110. Aiding escapees; misdemeanor. It shall be unlawful for any person to aid, harbor, conceal, or assist in any way any boy or girl who is attempting to escape or who has escaped from any school, institution or agency of correction and any person rendering such assistance shall be guilty of a misdemeanor.
- G. S. 134-111. State Board of Health to supervise sanitary and health conditions. The State Board of Health shall have general supervision over the sanitary and health conditions of the several schools, institutions and agencies and shall make periodic examinations of the same and report to the State Board of Correction and Training the conditions found with respect to the sanitary and hygienic care of the students.
- G. S. 134-112. Care of persons under Federal jurisdiction. The State Board of Correction and Training is hereby empowered to make and enter into contractual relations with the proper official of the United States for admission to the State schools, institutions and agencies of such Federal juvenile de-

linquents committed to the custody of such Attorney General as provided in the Federal Juvenile Delinquency Act as would profit from the program and services of the schools, institutions or agencies.

- G. S. 134-113. *Term of Contract*. Any contract made under the authority and provision of this Article shall be for a period of not more than two years and shall be renewable from time to time for a period of not to exceed two years.
- G. S. 134-114. Approval by State Budget Bureau. Any contract entered into under the provisions of this Article with the office of the United States Attorney General, the Bureau of Prisons of the United States Department of Justice, or necessary Federal Agency by any of the contracting institutions for the care of any persons coming within the provisions of this Article shall not be less than the current estimated cost per capita at the time of execution of the contract, and all such financial provisions of any contract, before the execution of said contract, shall have the approval of the State Budget Bureau.
- Sec. 2. This Article not applicable to reformatories or homes for fallen women authorized by Article 4. Chapter 134 of General Statutes. Nothing contained in this Article shall be construed to affect any of the provisions of G. S. 134-49 through 134-66, the same being Article 4 of Chapter 134 of the General Statutes.
- Sec. 3. All laws and clauses of laws in conflict with this Act are hereby repealed.
- Sec. 4. This Act shall be in full force and effect from and after its ratification.

In the General Assembly read three times and ratified, this the 5th day of March, 1947.

#### REPORT OF SUPERINTENDENT

Honorable Blaine M. Madison Commissioner of Correction Raleigh, North Carolina

Dear Mr. Madison:

We are pleased to submit herewith our Fifteenth Biennial Report, for the Biennium 1954-56.

Operations in general have been normal. The most significant changes relate to the completion of a mdoern cafeteria which began operations on June 1, 1955, and to the renovating of cottage kitchens and dining rooms into recreation rooms where our boys enjoy television and games.

We contemplate renovating the basements of the cottages in the coming Biennium. If this can be accomplished, our buildings will be in very good condition and a real credit to the State.

Physically, our boys are in good condition. Dr. K. D. Weeks and Mr. W. B. Stevenson have seen to it that each boys gets a thorough physical examination immediately after entering the school. Polio vaccine, typhoid and tetanus toxoid shots are administered.

Dr. Harry N. Baldwin of the State Board of Health's Division of Oral Hygiene spent six weeks at the school last year and is now completing six weeks of dental care for all our boys. Since most boys coming to the school are badly in need of this service, we feel that this program within itself is of inestimable value to their future health.

Spiritual values are stressed here in many ways. Sunday School is conducted each Sunday morning with the Superintendent and staff participating as teachers and counselors. Prayer meeting is conducted each Wednesday night with boys and staff participating. Several times during the year local ministers and missionary groups have brought unusual programs to our meetings.

On Sunday nights we attend various churches in Rocky Mount. One full cottage group attends each week. This makes it possible for every boy to attend an off-campus service every six weeks.

Recently we completed our annual Vacation Bible School with splendid results. Many boys have expressed the desire to join churches of their choice. They will join local churches and memberships will be moved when they return to their homes.

Other data pertaining to full operations will be found elsewhere in this report. Thank you very much for your splendid cooperation.

Very sincerely,

WILLIAM D. CLARK Superintendent

#### SIXTEENTH BIENNIAL REPORT

of the

## Morrison Training School

HOFFMAN, N. C.

An Institution for the Training of Negro Boys

a politico i igalia see a populare de

#### REPORT OF THE SUPERINTENDENT

MR. BLAINE M. MADISON

Commissioner of Correction

Raleigh, North Carolina

Dear Mr. Madison:

The sixteenth biennial report of the Morrison Training School for Negro boys, covering the period from July 1, 1955, through June 30, 1956, is herewith submitted.

#### I. Christian Character

The general progress of the Morrison Training School centers around the building of Christian Character in each individual boy who is enrolled at the school. In order that each boy experiences the joy that comes from Christian living, he must know something definite about the principles and teachings of Jesus Christ and His way of life. This experience he gains from regular Sabbath School attendance held each Sunday; from weekly prayer meetings held every Tuesday evening; from the monthly worship services; from special programs in which he takes part on religious holidays, and careful supervision of his daily relationships with adults and other boys on the campus and elsewhere.

#### II. Academic Training

The privilege of academic training is given all boys, although the majority of them lack the mental ability to participate in the programs as children of normal intelligence. Psychological, personality, achievement and other tests are given to determine grade or group placement that will help the individual to use his capacity to its fullest extent. No boy can leave Morrison feeling that he did not have the opportunity to attend school daily, or to find through exploration and aptitude tests what he can learn to do with his head and hands.

The academic department covers the elementary and high school, depending upon the grades of the boys who are committed to the institution. The industrial arts shop is a part of the academic program. In it, brickmasonry, painting, leathercraft, electricity, cement finishing, carpentry, auto mechanics and cabinet making are taught.

The teachers are well-qualified and certified, and follow the State Course of Study as far as possible with retarded groups. Each summer many of them continue their education in summer schools. Some of them attended the extension course sponsored by the Agricultural and Technical College of North Carolina at Morrison the past winter. Aside from teaching duties, they have shown a willingness to serve whenever and wherever needed.

The academic department participates in the Annual Essay Contest and the Richmond County Spelling B sponsored by the School Masters of Richmond County. Two boys won this year first places in the spelling B.

#### III. Work Activities

The farm includes 348 acres under cultivation, which attempts to meet the need of food for the dining hall and feed for the farm animals. Farm activities include gardening and general farming, with the boys doing most of the work under proper supervision.

The boys not only learn the planting and cultivation of farm crops, but they follow a definite pattern of soil conservation, crop rotation, silage preparation and storage, butchering and preparation of meat for the freezer, canning and preserving vegetables for the freezer, and proper care and protection of farm animals.

#### IV. Recreation

Our recreation program has as its primary aim the building of good character and strong healthy bodies. The campus lake is used from late spring until early fall for swimming, fishing and picnics.

During the winter months the director of athletics and other supervisors carry on a program of intra-murals between the boys of the different buildings. The players who meet best the requirements of good sportsmanship, good conduct in all phases of campus life and skill in playing the games, are chosen for the varsity teams. This experience gives the boys an opportunity to compete with teams outside the school, to make new friendships, to acquire an interest in the worthy use of their leisure time, and to learn how to adjust themselves properly to victory and defeat. Games played on the campus by outside teams give the boys who are not on the varsity teams a chance to enjoy the game and a desire to become one of the players. So far our varsity teams play football, baseball, basketball and softball with teams of outside schools and communities.

A special Audio-Visual Aids Committee selects the pictures for the weekly movies and the educational pictures and slides for the academic department. The boys show keen interest in the entire program of audio-visual aids which serve as educational and recreational measures.

The Boy Scout Organization is becoming an important part of the training program. Although our organization is young, we have been able to participate in outdoor activities with other neighboring Scout Troops, and our boys have enjoyed the outings.

The Boys' Choir is another activity that gives training in character building in group singing and in music appreciation. The choir furnishes music for all programs in the school.

Campus parties are planned by the teachers of the academic department for all the boys and are held in the gymnasium. Building supervisors plan group holiday parties as often as needed as a form of reward for good conduct or special work in connection with their buildings. Honor building based on the cleanest building for the month, is given a trip to the movies in Southern Pines, North Carolina. This has improved the appearance of our campus as well as enabled more boys to take pride in their buildings.

#### V. Medical Care

The general health of the boys has been excellent. Aside from one case of encephalitis which resulted in our one death we have had no serious illnesses. Our medical services are under the direction of Dr. N. E. Jackson, Dr. E. Zeno Edwards and the resident nurse. The physician makes bi-weekly visits to the school and is available for emergencies.

The dental clinic held annually under the direction of Dr. J. H. Barnhill of the Oral Hygiene Department, serves each boy according to his individual needs and recommends whatever care should be followed thereafter. Dr. J.

M. Stubbs, of Rockingham serves the boys who enter after the clinic is over, or who have dental emergencies.

The Moore County Hospital has cared for our operative an daccident patients.

#### VI. Home Life

We are still faced with the problem of inadequate dormitory space. We are now occupying the two dormitories that were under renovation during our last biennial report but, because of the still increasing population and the increase in number of young boys who must remain here longer periods of time, our dormitories are inadequate to house properly the number of boys we have. With the construction of the 60 capacity dormitory in the near future, we hope this problem will be solved.

The important matter of proper diet has not been overlooked. With the operation of a freezer locker, ice cream freezer and ice maker here on the campus, more wholesome and varied menus are provided. A baking oven and three ranges, including one fry-top range have replaced the old ones for better efficiency in the kitchen.

#### VII. Acknowledgments

To His Excellency, Governor Luther H. Hodges, The Budget Bureau, The Division of Purchase and Contract, The Chairman and Members of the Correction Board, The State Welfare Department, and the citizens of North Carolina I wish to express my deep appreciation for the patient understanding and support given to Morrison this biennium.

I am most mindful of the strong and willing assistance given the school by the staff members beyond their regular assignments. Without their loyalty and cooperation the work could not be successful.

To you, our Commissioner of Correction, for your guidance and counseling mere expressions of thanks cannot reveal the deep gratitud I feel. May your new work be interesting and profitable for you and our Great State.

Sincerely yours,

P. R. Brown
Superintendent

#### REPORT OF SUPERINTENDENT

MR. BLAINE M. MADISON

Commissioner of Correction

Raleigh, North Carolina

Dear Mr. Madison:

It is a privilege to submit to you the biennial report of the State Home and Industrial School for Girls covering the years 1954-55 and 1955-56.

During the two years our building program was completed as far as our funds would permit. The new Academic School Building was used for the school term of 1955-56. The Staff House was completed and occupied during the winter of 1956. These additions to our physical plant mean a great deal to our institution. Our entire physical plant is new with the exception of two dormitories and one or two barn buildings. We are hopeful that the General Assembly will grant our request for a Recreation Building and two dormitories. One dormitory would replace the two story frame building and one would relieve the crowded condition in the other buildings.

Our medical work has continued under the direction of Dr. J. P. Bowen. We have had no serious accidents or illnesses during this period.

The farm and canning programs have operated successfully.

The religious services have continued as usual. We are grateful for the ministers who hold services for the institution each Sunday.

In conclusion I wish to express my appreciation to all agencies who have aided us in our work. I am especially grateful to the Board of Correction and Training and to the retiring Commissioner of Correction, Mr. Samuel E. Leonard, and to you, Mr. Madison.

Respectfully submitted,

REVA MITCHELL, Superintendent

CLYDE A. DILLON,

#### REPORT OF THE SUPERINTENDENT

MR. BLAINE M. MADISON, Commissioner N. C. Board of Correction and Training Raleigh, North Carolina

Dear Mr. Madison:

The State Training School for Girls finds it a pleasure to submit its sixth Biennial Report ending June 30, 1956.

We are glad to report growth and progress in most areas of service and activity in our program. We have much for which to be grateful and we wish to express our appreciation in the beginning of this report to our Commissioner and all officials and friends who contributed to the welfare and growth of this program during this biennium. Both staff and girls have made a worthwhile contribution.

The natural beauty of the setting of our physical plant lends itself beautifully to growth and progress of the institution and contributes much to the program as such.

Personnel: The School has continued to maintain a capable and interested staff in most areas of service, although we find it necessary for most of our staff to serve in a dual role. We are interested and serve the children's needs willingly to the best of our ability. An effort toward both individual and group therapy is made with gratifying results. There is a need, however, for staff development through "In-Service Training on the Job," Study, Educational Leave or by whatever means it is feasible to do so. The staff has been encouraged to attend and participate in Educational, Health and Welfare activities which will help to improve our program and the services to children. We are glad to report that progress has been evidenced in this respect also during this biennium.

The Superintendent has kept in touch with organizations and activities of local, State and national levels when possible, which tend to broaden our contacts and thus help to improve our program and the services to our children. The Superintendent has attended and participated in educational meetings in the performance of official duty, which have included the following:

Annual meetings of the North Carolina Conferences of Social Service, The Annual Conferences of Department of Welfare, The National Conference of Superintendents of Women's and Girls' Institutions, The National Association of Training Schools, The National Conference of Social Work, and varied activities of the Federation of Women's Clubs, etc.

We have participated in various departments and functions of each wherever and whenever it seemed beneficial for improvement and progressive development of the program.

Population: Our population continues to be a heterogeneous group of less than 100 children. This group represents approximately 50 per cent of North Carolina's 100 counties. The urban areas (in which delinquency rates are naturally higher) claims the largest percentage of the entire population. The expansion of the physical plant has made increase of population possible. The school is usually filled to capacity with a waiting list.

**Program:** Our program is carefully planned with hthe total development of the children and their needs in mind. The program includes academic and vocational activities.

Although the progressive or individual progress system is used in the academic division, the grade levels begin with approximately third grade and continues through the tenth grade. The third and tenth grades have fewer children enrolled. The heaviest load falls between the fifth and tenth grades.

We attempt to coordinate all learning activities and fit them to the needs of the child as far as it is feasible. "Education for living" is the theme of our learning activities. Educating the head, the hands and the heart is always kept in mind, whatever the schedule or the activities offered. Rehabilitation through constructive activity is the key for understanding the children. Vocational activities are limited, but some training is given in the following areas:

Homemaking (varied aspects), Menu planning, Laundry, Sewing, Cooking, etc., Gardening, Poultry raising, Arts and Crafts, Beauty Culture (as a project), etc.

Emphasis is placed on understanding the child through creative crafts, creative arts, dramatics and music. Dramatics and music are stressed and thoroughly enjoyed. They have therapeutic values which should be encouraged along with good recreational activities, which provide an opportunity for participation of the group.

The health of our children, physically and mentally is stressed. The physical, mental, social, moral and religious phases of our program is given much attention. The school is fortunate in having a director of Religious Education on the staff, who also serves as chaplain.

The Glee Club has done exceptionally well and has made two Television appearances, one over WNCT and one over WITN.

Summer Activity Program: Our summer activity programs include such activities as remedial reading, library work, crafts, music, homemaking, gardening and recreational activities, hikes, training in day camping and scout activities.

Farm: The farm has improved and has been an asset to the appearance of the program for both its training value and fresh foods.

Our physical plant has been improved greatly by the paving of our main drives on the grounds. Both the physical plant and the program have shown improvement.

We wish to express appreciation again to our staff, to the Commissioner, to our Board of Correction and Training, to the Advisory Board, to the Department of Welfare, The Federation of Women's Clubs, and all officials, coordinating agencies and friends who have shown interest and contributed to the welfare and progress of our program during this biennium. We welcome their interest and suggestions at all times.

Respectfully submitted,
(Miss) MAE D. HOLMES
Superintendent

<sup>\*</sup> Includes Actual Cost of Gasoline Used for Farm Purposes.

The cost of extensive repairs are included in cost of Operation and Maintenance. We have made repairs to grapevine and have done extensive repairs to fencing plus considerable cost of fencing enclosure of a new pasture. These repairs and additions were needed in order to operate the farm more profitable in the future. Much of our expenditures has gone or was spent in this manner which otherwise would have been included in the figure shown as returns less cost of production.

#### REPORT OF THE SUPERINTENDENT

MR. BLAINE M. MADISON

Commissioner of Correction

North Carolina Board of Correction and Training
Raleigh, N. C.

#### Dear Mr. Madison:

It is my privilege to submit to you the twenty-fourth biennial report of the Stonewall Jackson Training School covering the years 1954-1955 and 1955-1956.

The renovation of the cottages which was begun in 1955 has been completed. Although the floor plan of the cottages is not ideal by modern standards, it has been much improved in arrangement and interior decoration. Space is now provided for an additional game room, more sanitary and convenient bathing facilities are provided for the boys, attic fans have been added for cooling the bedrooms, and better facilities have been made for the cottage personnel. Steel lockers were added for the boys' personal belongings and new beds and mattresses were furnished for the boys' bedrooms. In the original grant money was provided for new furniture but it became necessary for this money to be used in the renovation program. Therefore we still do not have adequate furniture for the staff apartments, game rooms, and living rooms.

Realizing the cottages are the very heart of the institution we have endeavored to set up an In-Service Training Program for the cottage parents. Regularly scheduled meetings have been held throughout the past two years. Out of these meetings has come a handbook for cottage personnel. This program has been valuable in helping the cottage parents to have a better understanding of the individual boy. State leaders in the correctional and institutional fields have been invited to the school to speak to the various groups.

The need for a full time psychologist has at last been filled. Mrs. Juanita N. Query, who was formerly State Psychologist for the Correctional Schools, joined our staff this year on a full time basis. With her help we have organized an extensive counseling and guidance program, headed by the Assistant Superintendent. A Counseling Committee of four members has been formed. They work with the individual boy in helping him with his personal problems. This replaces a form of counseling limited to one or two individuals carrying the full load. Under the new program many additional boys can be reached and the staff will not be compelled to limit their time to only the most severe problems.

With the increase in enrollment the academic department has become quite crowded. Classes have been too large for the best teaching climate. The entire academic program must be geared to remedial teaching and large classes cannot be adapted to this type of instruction. We find the school building has become antiquated and is no longer adequate for the needs of the school. It has become necessary to make a classroom in the basement of the school building. The teachers have been diligent and the educational program has been kept on a high level. New textbooks have been purchased, new library books added, and a complete set of film strips and a film strip projector purchased. The teachers donated funds for the purchase of a portable daylight screen to be used with the new projector.

We are continuing to offer many types of vocational training. Twenty-two different types of work are being taught at the present time. Due to the sale of a local textile plant it is not possible to secure warps for use in the cotton mill. At the present time we are trying to make arrangements for this need to be filled. If this is not successful it will be necessary to drop this trade from our program.

Under the management of Mr. J. L. Query the school farm continues a high rate of production. It supplies a wide variety of vegetables, fruits, milk, and meat products for school consumption. Not only does the farm supply food products, but it offers training for the boys.

The boys have enjoyed good health during the last biennium. The Cabarrus County Health Department has supplied Salk Polio Vaccine and given shots to the entire population.

The State Department of Oral Hygiene has supplied us with dentists during the summer months. The dental office has been expanded and fully equipped with modern facilities. The Infirmary has been completely floored with plastic tile and venetian blinds have been added to all windows. The Orthopedic Hospital at Gastonia, North Carolina, has been most generous in helping us with the boys who need their care.

The Cabarrus County Ministerial Association continues to supply the school with ministers for religious programs. They have been generous with their time during the annual Religious Emphasis Month, as well as other programs throughout the year. Many of them make special trips to the school for the purpose of counseling the boys in spiritual matters.

The recreational program continues to function on a high level. The annual Summer Camping Program was very successful this summer. The Athletic Department, under the direction of Mr. Paul Lentz, has expanded and offers many activities to fill the boys' leisure time.

The staff has been most appreciative of the efforts made in lightening their work schedule and of the added facilities which make their work more pleasant. Without the continued cooperation of the staff it would be impossible to build an adequate rehabilitation program.

My staff and I wish to thank you, the Board of Correction and Training, and the Budget Bureau, for your continued help and understanding of our problems.

Respectfully submitted.

J. Frank Scott, Superintendent
